

BULGARIAN JOURNAL OF PLANT PHYSIOLOGY

Volume XXVIII, No. 1–2, 2002

Bulgarian Academy of Sciences

Erdogan Hakki, Christo Peev, Luchezar Karagyozov, Mahinur Akkaya. Isolation of wheat microsatellite DNA fragments by hybridization selection	3
Dimitrina Stoyanova, Elena Tchakalova, Ivan Yordanov. Influence of different soil moisture on anatomy of maize leaves and ultrastructure of chloroplasts	11
Sumitra V. Chanda. Changes in cell wall polysaccharides during sunflower seed development	21
Nuran Durmu ^o , Kamil Co ^o kunçelebi, Asim Kadioglu, Osman Beyazoglu. Phenolic and sugar compositions of some <i>Hieracium</i> L. (Asteraceae) leaves in North East Anatolia	30
Valentina T. Toneva, Ivan N. Minkov. Influence of the photodynamic effect on the tissue water exchange in some monocotyledonous and dicotyledonous plants	36
Virjina Doltchinkova, Maya Lambreva. Effect of pH on the electrokinetic and light scattering properties of pea thylakoids in the presence of phytohemagglutinin	45
Violeta Velikova, Albena Ivanova, Ivan Yordanov. Changes in lipid composition of <i>Phaseolus vulgaris</i> leaves after simulating acid rain treatment	59
Nuran Çiçek, Hüsnü Çakirlar. The effect of salinity on some physiological parameters in two maize cultivars	66
Malgorzata Berova, Zlatko Zlatev, Nevena Stoeva. Effect of paclobutrazol on wheat seedlings under low temperature stress	75
Evgeni D. Ananiev, Kalina Ananieva, Galina Abdulova, Neliya Christova, Evgeniya Videnova. Effect of abamectin on protein and RNA synthesis in primary leaves of <i>Cucurbita pepo</i> L. (zucchini)	85

Valentina T. Toneva, Sofia D. Dimitrova, Biljana I. Pavlova and Ivan N. Minkov. Influence of Nitropyrine® on the early stages of chlorophyll synthesis in wheat	92
