

BULGARIAN JOURNAL OF PLANT PHYSIOLOGY

Volume XXI, No. 4, 1995

Bulgarian Academy of Sciences

Report presented at the International Workshop "Stress Physiology and Plant Growth Regulators", September 1995.

Elena Petcu, Maria Terbea. Proline content and the conductivity test as screening methods for frost tolerance of winter wheat	3
Andon Vassilev, Ivan Iordanov, Elena Chakalova, Vassil Kerin. Effect of cadmium stress on growth and photosynthesis of young barley (<i>H. vulgare</i> L.) plants. 2. Structural and functional changes in the photosynthetic apparatus	12
Zlatimira Stoyanova, Velichka Georgieva, Snezhana Doncheva, Ruzha Ioncheva. Applicability of Cu and Zn hydroxosalts as sources of microelements for growing lettuce (<i>Lactuca sativa</i> L.). I. Methodological approach	22
Irina Puneva, Lubomir Iliev. Histochemical investigation of alcohol dehydrogenase, glutamate dehydrogenase and α -esterase activity in low temperature stressed tobacco callus and the effect of cytokinins	30
Emanuil Karanov, Ljubomir Iliev, Vera Alexieva, Georgi Ts. Georgiev, Nguyen T. Thang, Liliana Natova. Synthesis and plant growth regulating activity of some novel 2-methoxy-4-(1- or 2-propenyl)-6-substituted phenols	39
Liliana Maslenkova, Sashka Toncheva, Yuzeir Zeinalov. Effect of abscisic acid and jasmonic acid (or JA-Me) on the photosynthetic electron transport and oxygen evolving reactions in pea plants	48

Nikola Mashev, Georgi Vassilev, Kalin Ivanov. A study of N-allyl-N'-2-pyridylthio- urea and γ -irradiation treatment on growth, yield and quality of peas and wheat	56
Christo Christov, Iordan Tsvetkov, Vasil Kovachev. Use of paclobutrazol to control vegetative growth and improve fruiting efficiency of grapevines (<i>Vitis vini- fera</i> L.)	64
