

GENETICS AND PLANT PHYSIOLOGY

Year 2019, Volume 9, Issue 1–2, Pages 03–98

Available online at <http://www.ifrg-bg.com>

CONTENTS

<i>Edreva A., A. Vitkova, E. Gesheva</i> Field-cultivated plants from <i>Achillea millefolium</i> group: total flavonoid content, antiradical and antioxidant activities in stems and leaves, and ratio of plant parts	03–10
<i>Petrov P., T. Kartseva, H. Milanov, T. Tashev, S. Misheva</i> Why do wheat seedlings respond differently to drought simulated by polyethylene glycol 6000 osmotic stress or soil drying	11–21
<i>Kozuharova E.</i> Pollination ecology of medicinal plants – what we must not neglect for their sustainable use	22–35
<i>Angelova V., D. Georgieva</i> Relationship between epidermal ridge patterns in three cohorts of Bulgarian population: A pilot study	36–50
<i>Bednarska I., G. Angelov</i> Isoenzyme variations and genetic identities among taxa of <i>Festuca</i> series <i>Psammophilae</i> M. Pawlus (Poaceae)	51–56
<i>Angelov G., I. Bednarska</i> Isoenzyme variation and systematic relationships among <i>Festuca asperifolia</i> , <i>F. peristerea</i> , <i>F. diffusa</i> and <i>F. valesiaca</i> (Poaceae)	57–63
<i>Nikolova K., S. Bratkova, P. Genova</i> Plant growth-promoting bacteria in combination with humic acids improve growth of white clover (<i>Trifolium repens</i> L.) cultivated in poor soils	64–74
<i>Vassilevska-Ivanova R.</i> Biology and ecology of genus <i>Cannabis</i> : genetic origin and biodiversity. <i>In vitro</i> production of cannabinoids	75–98
