Contents

Preface..... *iii*

Participants..... *v-xviii*

Volume 9 **2007** **Pages**

Stefan Berceanu
Coherent States Associated to the Jacobi Group - a Variation on a Theme by Erich Kähler..... *1-8*

Martin Schlichenmaier
Berezin-Toeplitz Quantization of the Moduli Space of Flat SU(*n*) *Connections*..... *33-44*

Armen Sergeev
Grassmannian Sigma-Models..... *45-65*

George Svetlichny
Quantum Information and the Problem of Time..... *67-74*

Ivan Tsyfra
Symmetry of the Maxwell and Minkowski Equations System..... *75-81*

Maciej Wojtkowski
Geometry of Kalman Filters..... *83-95*

Volume 10 **2007** **Pages**

Andrei V. Domrin
A Noncommutative Uniton Theory.....*1-8*

Jakob G. Heller, Nikolai Neumaier and Stefan Waldmann
Locally Noncommutative Spacetimes..... *9-28*

Hovhannes M. Khudaverdian
Tube Formula, Berezinians, and Dwork Formula..... *29-40*

Aleksandr Komlov
Noncommutative Grassmannian U(1) *Sigma-model and Bargmann-Fock Space*..... *41-50*

Volume 10 **2007** **Pages**

Oleg I. Mokhov
Multidimensional Poisson Brackets of Hydrodynamic Type and Flat Pencils of Metrics..... 51-72

Roman Palvelev
Scattering of Vortices in the Abelian Higgs Model..... 73-82

Adrian Tanasă, Ángel Ballesteros and Francisco J. Herranz
Solutions for the Constant Quantum Yang-Baxter Equation from Lie (super)algebras..... 83-92

Jaromir Tosiek
Abelian Connection in Fedosov Deformation Quantization..... 93-102

Volume 11 **2008** **Pages**

Arno Bohm and Peter Bryant
Conjecturing the Mathematical Axiom that Provides a Unified Theory of Resonance and Decay and Connects it to Causal Time Evolution..... 1-22

Manuel Gadella, Fernando Gómez and Sujeev Wickramasekara
Riggings of Locally Compact Abelian Groups..... 23-31

Fernando Gómez-Cubillo and Zdzislaw Suchanecki
Breakdown of Time-reversal Symmetry: Intrinsic Randomness, Time Operator, Scattering..... 33-40

Sujeev Wickramasekara
Gamow Vectors in the Bakamjian-Thomas Construction..... 67-75

Volume 12 **2008** **Pages**

Hellmut Baumgärtel
Resonances as Eigenvalues in the Gel'fand Triplet Approach for Finite-dimensional Friedrichs Models on the Positive Half Line... 1-13
